

Harborough Innovation Centre

Harborough Innovation Centre is a dynamic project, offering work spaces for small businesses to operate from and flourish in a community feel.

The work was planned/ designed by the property manager Tim Bradbury and Blackberry Hill Carpets. The Carpet Tiles chosen for this office interior were Rawson's Riven structured solution dyed nylon tile in colour Rock. The carbon neutral carpet tiles are ideally suited to a busy office environment with subtle natural tones and patterning along with exceptional durability.

The criteria was for a durable, functional and hard wearing 'grey' carpet but something that had interest! Rawson Carpet Solution's client was pleased with the end result of tessellated tiles, showcasing texture and design.
