

## Citron Hygiene Head Office Project

The New offices, designed by Bridge Interiors for Citron Hygiene, required a finish that was durable and that evoked the branding of the company. Colours were chosen from the Rawson Nylon Range Riven. Following Rawson's nylon strategy, products can be chosen that have differing colourways, but with matching yarns running through them, allowing for a familiarisation in the floor even when colours are dramatically changed. Here Rock, carbon moss and brook have been used for this workplace carpet tile installation.
