

Dorchester Primary School – Recover recyclable Carpet Tiles

Dorchester Primary school is a happy, caring school for children aged from 3 to 11. With high expectations that all children achieve excellence during their time at the school, thriving academically and socially.

The circulation areas and corridors have been refurbished with Rawson Carpet Solution's 'Recover' highly sustainable fully recyclable carpet Tile, a carpet tile solution which is also low impact in manufacture and accredited with GRS standard raw materials (Global Recycled Standard). Colours of natural grey and protect blue were chosen to promote a fresh and new modern feel to the areas. Rawson Carpet Solutions, a UK Manufacturer since 1865 released Recover this year and recently promoted the attributes of the product at the carpet recycling UK conference.

Installed by GBK flooring in Hull, Recover offers a natural aesthetic with the grey installation and helps to promote a quiet comfortable learning space. The subtle pastel colour range offers choice and the polyester fibres are soft underfoot and comfortable for seating areas. Recover is surely the way forward with regard to a sustainable education facility carpet choice. BRE EPD's are available on the Rawson website displaying the single polymer products attributes. Recover is class 33 heavy contract tested and castor chair suited.
